

SGE: 100µL fixed luer lock

- Constructed from borosilicate glass, Teflon® (PTFE) plunger tips and Kel-F® or Teflon® Luer cones where applicable.
- Plungers are interchangeable on these syringes
- Assembled with an interference fit between plunger tip and barrel to effect the gas sealing properties of the syringe

Tomopal Part #	600-5230
Manufacturer Part #	005230
Volume	100µL
Accuracy & Reproducibility	± 1%
Borosilicate glass barrel OD	8 mm
Scale Length	60 mm
