

Infusion Pumps: KDS 220

Tomopal Part #	Manufacturer #	Voltage
781-2203 USA	781220 USA	115V~, 0.1A
789-2203 CE	789220 CE	230V~, 0.05A

Features:

- Multi-Syringe Infusion Pump is ideal for applications requiring multiple syringes. Pump can hold up to ten syringes.
- Ten Syringes 10 µl-10 ml each
- Six Syringes 20 µl-60 ml each
- Four Syringes 100 ml-140 ml each
- All control functions are performed automatically by the pump microcontroller and are based on the syringe diameter and linear motion of the pusher block to deliver at the specified flow rate.
- RS-232 Interface
- TTL Interface
- Min. Flow Rate (10 µl syringe): 0.001 µl/hr
- Max. Flow Rate
 - 10 ml Syringe
 - 60 ml Syringe
 - 140 ml Syringe
